Company

The company began in 1973 in Lumezzane, in the province of Brescia, from the unity and creativity of the brothers Mario, Angelo and Giuseppe Sciola.

Already experts in the metalworking sector, they launched their own **production of stainless steel cutlery** that today continues with the new generations and is recognized internationally.

Since then, Sciola has been synonymous with guaranteed quality of products originating from careful choice of the raw materials, with a technologically advanced production cycle, careful finishing and attention to detail that makes this cutlery unique thanks to the unmistakable **Made in Italy** quality.

Always attentive to quality, we choose the **best raw materials**, from the steel that constitutes the fundamental element of our cutlery to its creation with modern, refined designs.

Unmistakable
Made in Italy
quality

Packaging

CASES

Ideal packaging for wholesalers, shops and supermarkets. Its practical space-saving packaging allows displaying the product avoiding breakage and tampering.

Boxes are made with resistant materials and are available in different colors.

Boxes may be personalized on the customer's request and **can contain 2, 3 or 6 pieces**, according to the need.

BAGS

Made of practical, resistant materials, these are ideal for display. The special perforations at the top of the envelope allow keeping the cutlery clean and, at the same time, quite visible. This is the perfect solution for displaying the items in supermarkets and shops.

Available with our brand, neutral, or personalized on request (based on quantities). Every bag **may contain 2, 3 or 6 pieces**.

BLISTER PACKS

Designed and made to meet the needs of wholesalers, our products may be placed in this special packaging perfect for display in supermarkets and shops.

The blisters are made in resistant cardboard in bright colors. A special film protects the cutlery, keeping it clean.

Every blister can be personalized at the customer's request and **may contain 6 or 12 pieces**.

STANDARD BOX

For the standard packaging of loose cutlery, we use **boxes for 12 pieces**, available in various colors or in neutral white, without script.

*Cutlery for home, restaurants, bars
and wholesalers*
